DETAILED ACTION

Election/Restrictions

Claims **16 and 17** are allowable. The restriction requirement as set forth in the Office action mailed on November 1st, 2002, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 18-22, directed to non elected species are no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Art Unit: 3772

Authorization for this examiner's amendment was given in a telephone interview with Carolyn Eckart on June 29th, 2011.

The application has been amended as follows:

16. (Currently Amended) A system for treating bone fractures comprising;

an expandable tubular implant configured to expand from a reduced configuration to an expanded configuration, the expanded configuration comprising a greater diameter and a shorter axial length than the reduced configuration[.];

a delivery device comprising a balloon, the balloon having an exterior surface[.];

said expandable tubular implant removably attached to the exterior surface of the balloon[.]; whereby the balloon expands the tubular implant at the treatment site from the reduced configuration to the expanded configuration, whereby the balloon is configured to be removed after leaving the expanded tubular implant in place to span and fixate the bone fracture, and the expanded tubular implant includes a hardenable substance.

Cancel claim 28 in order to consider the current application for allowance.

Allowable Subject Matter

Claims **16-22** are allowed.
